Hill. This is the beginning of the trails leading towards the Vējupīte ravine to explore other natural landmarks. Sigulda, between Vējupīte ravine and Gauja River valley, 57.1751, 24.8657

25. Emperor's View and **Emperor's Chair**

Lookout points with a striking view of the ancient Gauja River valley were created to mark the visit of Russian Tsar Alexander II to Sigulda in the second half of the 19th century. You can continue exploring nature from these locations via a network of trails leading towards the Gauja. The Emperor's View Lookout is located

300 m NE of the Fischer Ski Centre, 57.1426, 24.8238. The Emperor's Chair is located 300 m W of the adventure park "Mežakaķis", 57.14273, 24.82391

26. Gutman's Cave (Gūtmaṇala)

The largest grotto cave in the Baltic States and the earliest tourist attraction in Latvia, the walls of which have witnessed many events and preserve inscriptions dating back to the 17th century. It is also the origin of the beautiful story of Turaida Rose, who secretly met at the cave with her beloved Viktors, the gardener of the Sigulda Castle. © Turaidas iela 2A, Sigulda, 57.1762, 24.8425

27. Sigulda Devil's Cave

The rocky outcrop of the Devil's Cave is 250 m long and about 15 m high, forming an ancient cult site - the Devil's Cave (or the Velnala in Latvian). It is a protected geological site, best viewed from the opposite bank of the river. ${f \lozenge}$ On the right bank of the Gauja River,

28. Inčukalns Devil's Cave Inčukalns Devil's Cave (Velnala) is a legendary rock that holds many secrets in its dim depths and is said to have once been the dwelling place of the devil. A visit to the cave may be combined with the 3rd section of the long-distance route "Mežtaka", which leads from Vangaži to Rāmkalni. (a) Inčukalna pagasts, 57.1268, 24.6384

3.8 km from the Sigulda Bridge towards W, 57.1502, 24.8109

29. Raven's Ravine and Cave The Raven's Ravine is formed in dark red Middle Devon sandstone and adjacent to it is a small triangular cave, the origin of

the name of which is traced back to an old

© Located in Sigulda 400 m SE of the Paradise Hill, 57.1738, 24.8672

30. Peter's Cave

The visually remarkable Peter's Cave resembles a fissure-like niche in the red sandstone wall and its entrance is only 0.5 m wide. © Located in Sigulda near the ancient Satesele settlement hill, nestled in the high cliffs on the left bank of the Vējupīte ravine,

31. Satesele Castle Mound and Canyon

Satesele Castle Mound or the Hill of Livs is a witness of the earliest settlement of Sigulda, the site of fierce battles between

13th century. Satesele Canyon is like the hidden jewel of nature – less known, yet a charming place on the trail route with its red cliffs and sandstone ravine. Pēteralas iela 2, Sigulda, 57.1705, 24.8699 Sigulda county

32. Ravine The Witches's pot English) is a huge sulphous funnel or ravine formed as a result of different watercourses. The ravine is a partially isolated cylinder 30 m high and 20 m wide on the

valley side. The inner part of the ravine resembles a geological museum panorama, displaying the folding, layering, composition, and colour changes of the rocks. Sigulda region, Nurmiži ravine reserve area, 57.1758, 24.8860

33. Piķene Bluff The Pikene Bluff is a stretch of the right

main bank of the River Gauja, about 1 km long and 70-80 m high, with small adjacent ravines. Along the walking route you will see several sandstone outcrops and a small waterfall © 200 m from the parking lot at the Devil's Cave, Sigulda, 57.1545, 24.8258

34. Pedestrian Bridge over the River Gauja

Built in 1979, this footbridge over the River Gauja connects hikers on both sides of the river in a circular route and offers a picturesque view of the Devil's Cave and cliffs. © 500 m from the car park at the Devil's Cave, 57,1491, 24,8070

35. Serpentine Roads

The Krimulda Serpentine Road was created in the 19th century in anticipation of the visit of Tsar Alexander II of Russia and is now a popular walking route from the Gauja Bridge to Krimulda Manor. The Sigulda Serpentine Road connects Sigulda's Festivity Square and the Gauja Bridge, letting you explore the unique landscape of the valley from a different angle. © 57.1699, 24.8305 (Krimulda), 57.16201, 24.84217 (Sigulda)

36. Lēdurga Arboretum

A life's work of one man, Lēdurga Arboretum has grown into a favourite destination for nature lovers who appreciate the unique nature collection in every season of the year. It provides an endless source of material for arboreal researchers, as many species and varieties of arboreal plants that are considered difficult to grow in Northern Vidzeme thrive and survive winter in Ledurga. The park is the departure and destination point for a walking route through the historic centre of the village of Lēdurga. © Lēdurga, Krimuldas pagasts, 57.3141, 24.7600, info@ledurgasdendroparks.lv, +371 25549747, www.ledurgasdendroparks.lv

37. Kalķugrava (Mežmuiža) Springs A European protected Natura 2000 site

and a geological area uncommon in Latvia. The springs flow from the Kalkugrava slope and, depending on rainfall, the number of these brooks can vary from 3 to 14. © Kaļķugravas, Allaži, 57.10123, 24.79962,

1.25 km long, floodlit, cross-country ski slope, the only artificially iced ski slope in

Eastern Europe. Natural snow ski slopes up to 3 km long. A 1.25 km long tarmac circuit is available in summer, perfect for roller-skiing and roller-skating, as well as for jogging, Nor dic walking, and cycling. In the service block you will find equipment rental, changing ooms, showers, and a sauna. 🤊 Puķu iela 4, Sigulda, 57.1401, 24.8169, fsc@siguldassports.lv, +371 29118847, www.siguldassports.lv

Sigulda City Slope

The Sigulda City Ski Slope is the most athletic, longest, and widest downhill ski slope in Latvia with 350 m and 200 m long slopes. The vertical drop is 90 m. The slope is used for numerous different races. Equipment rental, instructor services and a café are also available on site.

55. Sigulda Municipality Culture

Centre "Siguldas devons" After an extensive renovation, the Culture Centre was opened in 2018, taking on a new breath and a new name, recognising the period when the Gauja sandstone was formed, inscribing a magical code for a further jump in development. The facade of the building is ornamented with decorative panels printed with sandstone outcrops from the Devil's Cave (Velnala) cliffs, where fossils of Devonian fish and flora are most abundantly preserved. The Cultural Centre presents art exhibitions, cinema, theatre, concerts, and other events © Pils iela 10, Sigulda, 57.1562, 24.8528, kultura@siaulda.lv. +371 67971280
